Keep the safety instructions and operating manual for future reference.

Caution risk of injury: make sure all parts are undamaged and professionally assembled. There is a risk of injury if not assembled correctly. Damaged parts can affect safety and function. If the construction or individual parts are damaged, do not continue to use the product and seek professional service.

Warning: do not leave children unsupervised! The product is not a toy! Make sure that persons, especially children, do not climb on or on the product. The product may tip over or fall. Injury or damage to the product may .

Attention! Do not place the product near an open flame or use the product for transporting and storing flammable substances, acids and chemicals.

• Check the trolley before each use to ensure it is in perfect condition. If you find any damage to the trolley, you must not use it!

• Never overload the trolley and do not load it with a load greater than the load specified in the technical data. Always store tools and objects evenly on the shelves and do not overload individual shelves! This could cause the trolley to tip over or fall! Injury or damage to the product may result!

• Use the trolley only on smooth and level surfaces, not on steps or on sloping ground. Always make sure the trolley is properly secured against movement or is further secured with additional additional anti-movement securing!

• After assembly, check the individual bolted connections for strength at regular intervals.

• When handling and manipulating the trolley or when storing it in drawers/shelves, work carefully to avoid injury or pinching of fingers or body parts etc.!

• Store the product in a dry, secure and ventilated place, away from residential .

WARNING! Keep packaging material, especially plastic mops out of the reach of children! There is a danger of suffocation! Dispose of packaging material in a suitable manner!

WARNING! This product must not be used by persons (including children) with reduced mental or physical abilities, or by persons who are inexperienced in the operation of the product, unless they are working under the supervision of a responsible person who will ensure the safe use of the equipment. Do not use the product if you are tired, under the influence of drugs, alcohol or medication. Children must not play with the product!

STORAGE

In order to maintain a long service life, we recommend storing the trolley in a dry, ventilated and secured - enclosed space (cellar, garage, garden house). Do not store the trolley in the living areas of buildings. Before storing the trolley, especially before longer storage, treat the joints and moving parts with a suitable lubricant or preservative (oil, etc.). Always check that the trolley is properly cleaned before storing it. To prolong the life and keep the trolley in good condition, we strongly recommend that you cover the trolley even if you leave it outside for any length of time. We recommend the use of a suitable protective tarp to ensure that the trolley is protected from dust, dirt or other damage. Even if the trolley is protected by a tarpaulin, it must be checked regularly as moisture or condensation may affect the trolley and cause damage. and corrosion. V
in this case, the trolley will have to be dried out, including the protective tarpaulin.

CLEANING AND MAINTENANCE

With gentle and considerate use, you will significantly extend the life of the trolley. The manufacturer recommends cleaning and regular maintenance after each use of the trolley. Clean the trolley with a dry or lightly dampened soft cloth and soapy water. Do not use aggressive solvents or abrasives that may permanently damage the surface of the trolley. Periodically check all connections for tightness. Treat the trolley mechanism, bolted joints and trolley parts with a suitable lubricant and preservative to prevent corrosion. The manufacturer recommends this to ensure a longer service life, but at the same time as
protection against damage to the trolley by the use of additional protective anti-slip pads in individual drawers or shelves of the trolley. Treat areas where the trolley has been damaged, corroded, scuffed, etc. with suitable paint or coating.

ASSEMBLY

After assembly, check each bolted connection for strength and tighten the individual parts. If any parts are damaged or incomplete, do not assemble or use the trolley! First complete these parts before you can start using the trolley. Assemble with care and use the individual screw connections

Tighten with care to avoid damaging the product. Pay maximum attention not to damage the product during assembly.
to abrasion or damage to the product! We recommend that the assembly is carried out in 2 persons and on a clean protective mat to avoid abrasion and scratching of the trolley parts during handling. Some parts of the product may have sharp edges which can cause injury. Therefore, be very careful when assembling and handling individual parts of the trolley. The manufacturer recommends wearing protective gloves during assembly. The manufacturer recommends the use and placement of non-slip pads in each shelf of the trolley to prolong the overall life and protect the trolley from damage.

PROTECTION, WASTE TREATMENT

Appliances, products, accessories and packaging should be delivered for reuse
not harmful to the environment. Do not dispose of used products, appliances or equipment in household waste! Dispose of the product through an approved recycling facility, or through a municipal disposal facility or collection yard. Observe the applicable regulations! If in doubt, consult a recycling company. Leave all packaging materials
dispose of in accordance with environmental regulations. Products or appliances so handed in will be collected, dismantled and delivered for environmentally sound reuse.

Technical data:

Total length with handle: 78 cm

Depth: 35 cm

Overall height: 73,5 cm Load

capacity: 130 kg

Shelf depth: 6 cm

Distance between shelves: 24 cm

Weight: 12 kg
