Pro-Tech TOOLS

Assembly workshop chair 45-60 cm

Instructions for use

1. Purpose of the device

The Pro-Tech TOOLS 40819 Assembly Workshop Chair is designed for comfortable work in the workshop with seat height adjustment from 45 cm to 60 cm.

Technical parameters:

- **Seat height:** adjustable from 45 cm to 60 cm
- **Material:** durable steel construction with padded seat
- **Load capacity:** 140kg
- **Castors:** 4 swivel castors for easy mobility
- **Storage compartment:** integrated under the seat for tools and small parts

Assembly:

1. **Fixing the wheels:**
    - Attach the swivel castors to the base of the chair.
2. **Installation of the storage compartment:**
    - Place the storage area under the seat and secure it.
3. **Seat installation:**
    - Attach the seat to the adjustable mechanism and make sure it is firmly fixed.

Application:

- **Height adjustment: use** the adjustment mechanism to adjust the seat height between 45-60 cm as required.
- **Mobility:** thanks to the swivel castors, the chair can be easily moved around the workshop.
- **Storage space:** use the space under the seat to store tools and small parts for easy access while working.

Safety :

- Do not exceed the maximum load capacity of the chair.
- Use the chair on a flat and firm surface to prevent tipping.
- Regularly check the condition of the wheels and the fixing of the individual parts.
- Do not use the chair as a stand or step.

By following these instructions you will ensure safe and comfortable use of the assembly workshop stool.
